

Anoop Singla

Software Developer (Backend)

Phone: 79736-15582 | Email: anoopsingla21@gmail.com | Portfolio Website: anoopsingla.fun |
LinkedIn Profile: linkedin.com/in/anoop-singla-717b56309 | Github Profile: github.com/anoop-singla21

Summary

Backend Developer specializing in scalable system design, fintech integrations, and data pipelines. Experienced in FastAPI, PostgreSQL, React, and AWS, and distributed architectures with strong expertise in authentication/authorization (RBAC, ABAC, ReBAC). Proven ability to build production-grade systems, payment integrations, and automated data synchronization pipelines.

Experience

Junior Backend Developer - Meharsoft Technologies Pvt. Ltd., Punjab

Jun 2025 – Present

- Contributed to system architecture and backend design for fintech applications
- Designed scalable workflows and backend systems for fintech applications
- Implemented secure authentication and authorization (RBAC, ABAC, ReBAC)
- Built robust audit logging and centralized error handling mechanisms
- Integrated payment gateways including Razorpay and PhonePe
- Implemented rate limiting to ensure API stability and prevent abuse
- Applied Unit of Work and Repository patterns for clean data access layers
- Deployed applications on DigitalOcean and configured Nginx for production environments
- Utilized AWS services (S3, EC2, RDS) for scalable cloud storage, compute, and managed database deployments.

ERP Data Sync & Automation:

- Automated ERP data extraction using Playwright for dynamic web applications
 - Cleaned and preprocessed data using Python (handling nulls, inconsistencies, formatting)
 - Designed transformation logic to map legacy data to ERP schema
 - Built end-to-end data migration pipelines ensuring data integrity
 - Automated data ingestion into ERP systems using Playwright
 - Worked on large-scale data synchronization between legacy and ERP systems
-

Projects

PACS ERP Data Sync

Jan 2026 – Present | FinTech

Architecture: Multi-Application

Framework: Page Object Model (POM)

Tools: Playwright, TypeScript, Python, SQLite, Chromium, Svelte

Key Features:

- Developed an automated ERP data synchronization pipeline
 - Implemented web scraping and automation using Playwright
 - Designed data cleaning and transformation workflows
 - Ensured reliable data migration between legacy and ERP systems
-

Merchant Payment Gateway Platform

Jun 2025 – Jan 2026 | FinTech

Architecture: Modular Monolith

Tech Stack: FastAPI, SQLAlchemy, Python, Redis, Valkey, Celery, PostgreSQL, React

Key Features:

- Built scalable backend for payment processing
- Integrated Razorpay and PhonePe payment systems
- Implemented RBAC, ABAC, ReBAC-based security
- Developed rate limiting, audit logging, and exception handling
- Used Celery for background job processing

DevOps: AWS (S3, EC2), DigitalOcean, Docker, Nginx, Linux (Systemd)

Previous Experience

Frontend Training Experience | Memorique (<https://memorique.ai/>)

Nov 2024 – May 2025

Gifting Dashboard · React & TypeScript

Tech Stack: React, TypeScript, Git

Key Features:

- Built and refined a gifting dashboard frontend using React and TypeScript, focusing on modular UI components and responsive design.
 - Collaborated with backend teams to integrate APIs for gift catalog, user authentication, and transaction workflows.
 - Applied state management patterns to ensure smooth user interactions and real-time updates.
 - Enhanced dashboard usability with intuitive navigation and clean UI layouts, improving user experience.
 - Gained hands-on exposure to agile development practices and collaborative version control with Git.
-

Skills

Languages: Python, TypeScript

Backend: FastAPI, SQLAlchemy

Frontend: React, Tailwind CSS

Databases: PostgreSQL, SQLite

Tools: Playwright, Celery, Redis, Valkey

Concepts: REST APIs, RBAC, ABAC, ReBAC, Rate Limiting, Authentication

DevOps: Docker, Nginx, DigitalOcean, Linux, AWS (S3, EC2)

Education

- ***B.Tech, Mechanical Engineering – University College of Engineering, Punjabi University, Main Campus, Patiala - 2009-2013 / 8.31 CGPA***
-

Achievement

- Two times GATE qualified.
- Got 1st position at Science Fair at district level.
